

WELSH CONSTRUCTION COMPANY COMPLETES PROJECTS STATEWIDE

The commercial construction industry in Brevard County and in Florida is booming! Welsh Construction of Melbourne is building new facilities for clients in some of the fastest growing business sectors such as urgent care, self-storage and daycare/early learning schools.

Welsh Construction was founded by Ken Welsh in 2003 as a general commercial contractor providing all construction services in the medical, educational, self-storage, multi-family, religious, retail, office and restaurant sectors. This year, Welsh was chosen by MedExpress, Extra Space Storage and Creative World Schools to construct their facilities.

MedExpress-Vero Beach

In June, Welsh completed a 4,707 square foot facility in Vero Beach. MedExpress Urgent Care, headquartered in Morgantown, West Virginia operates nearly 250 urgent-care centers in 19 states and growing. MedExpress provides high-quality, convenient and affordable health care providing a range of services including urgent care, basic wellness and prevention, and employer health services.

ExtraSpace Storage-Sanford

Florida is the 3rd most populated state in the country and keeps on growing. As a result, self-storage facilities are popping up all over and Extra Space operates 1600 units in 40 states. Ken Welsh, owner of Welsh Construction has been involved in the storage industry from both an ownership and construction level and was chosen to build a 91,000 square foot, all steel, all-climate controlled facility in Sanford.

Creative World School-St. Cloud

This month, a Creative World School in St. Cloud opened a daycare/early learning facility to a waiting list of Orlando area families. Welsh completed a 9,400 square foot facility in St. Cloud, the 18th in Florida for a company that schools in Texas, Missouri, Illinois and Virginia. In 2017, Welsh completed Coral Reef Academy on Nasa Boulevard in Melbourne.

Welsh Construction is growing both in projects and personnel in Florida and beyond. If you need additional information about these projects, our company or, building a new project, please contact Chris Norton, Vice President at 321-757-7383. Email: Chris@Welshci.com
