

OSTEO STRONG®

ECHOLIGHT

Discover Your True Bone Health with REMS EchoLight!

Join Us For an Exclusive Bone Quality Assessment Event

OsteoStrong Sacramento presents REMS EchoLight — a safer ultrasound alternative to DXA, without X-rays, providing instant BMD T-scores + detailed insights into bone microarchitecture and quality, plus a 5-year fracture risk assessment.

Ideal for OsteoStrong members and ANYONE eager to track progress and concerned about osteopenia/osteoporosis.
