

Predictable IT for Business

We are partnering with the Better Business Bureau to Present Cyber Tactics for Business Owners

The recent cyber attack against Colonial Pipeline prompted warnings and awareness about the threat of ransomware and other types of cyber-security risks. Cyber-attacks have grown over 400% since the pandemic started, with more than 4,000 reports being made to the FBI Cyber Division daily. Many of these attacks have targeted small businesses.

We will breakdown 5 actionable security controls you can implement at your business and in your personal life to keep your business from becoming the next statistic.
