600 N Verrado Way, Buckeye, AZ 85326

Fentanyl, a powerful synthetic opioid, has become a leading cause of overdose deaths across the nation, **and right here at home.** Families, schools, and law enforcement agencies are grappling with the consequences of this crisis, which affects individuals of all ages and backgrounds.

This forum aims to:

- Provide critical education on the dangers of fentanyl
- Equip attendees with resources to protect their families
- Foster a collaborative community response to combat this epidemic

FREE **NARCAN® Nasal Spray** will be available.
