

3D PRINTING CAMP

JULY 27-30 (9am-3:30pm DAILY)
ESTHERVILLE CAMPUS SERT BUILDING
(2421 7TH AVE. SOUTH • ROOM #710)

The mission of the 3D Printing Summer camp is to provide students with the tools to bring design ideas to life. Campers in this course will learn how to: model objects from scratch using Blender, harness the power of online apps for quick project creation, apply the rules of 3D print design, scan objects using various 3D scanners, sculpt with a digital drawing tablet, utilize Thingiverse, and take home their 3D printed projects.

\$200

for participants signing up
on or before June 1, 2015*

Maximum class size is 24.

Lunch is included.

Curriculum is suggested
for 9-12th graders.

*No additional discounts. Price increases to \$255 after June 1.
