About Chapters Health Foundation and Good Shepherd Hospice:

Established in 2018, Chapters Health Foundation (CHF) conducts a wide variety of fundraising activities throughout the communities we serve. Such activities are based on the unique giving capacities and opportunities found within each of those communities. The activities consider the interest of the communities and the composition of the donor population. The Chapters Health Foundation fundraising initiatives help underwrite funding short falls for programs such as bereavement, children’s grief camp, and veterans programming.

Good Shepherd Hospice has been here for you since 1979 offering quality, compassionate hospice care to everyone in Polk, Highlands and Hardee counties. The mission of Good Shepherd Hospice is to provide quality palliative care and relieve the suffering of those in our communities affected by life-limiting illnesses and end-of-life issues, while maintaining the highest ethical standards, so all may live as fully and comfortably as possible. As a Not-for-Profit Provider, Good Shepherd Hospice will never deny services to anyone due to financial hardship. Patients receive services wherever they call home—in a primary residence, assisted living facility, skilled nursing home, hospice house or hospital.
