

Good Afternoon Employer Partners,

The Career Services Department at Southwestern Illinois College would like to share with you all of the wonderful opportunities and initiatives we have to connect with students! If you are interested in scheduling a meeting to discuss these opportunities further, please contact me by phone or email.

Meet the Employer

This event serves as a recruitment tool for employers, as well as an opportunity for students and employers to network with one another. It consists of a presentation from the employer that includes any information to be communicated to job seekers (e.g. company information, application requirements, jobs, etc.), and a question and answer session following the presentation.

Job Shadow Program

Career Services is seeking job shadow opportunities for our students in the form of group tours and one on one position shadowing. The goal of this initiative is to introduce students to the “real time, real life” experiences of performing in the workplace. We will transport students to and from the company location for group tours, and individual job shadow transportation needs will be met on a case by case basis.

Recruitment Table

Employers may schedule a table in one of our high student traffic areas to do passive recruitment on campus. We provide a 6 foot table and two chairs, and employers are welcome to bring any information or displays needed to promote their company and open jobs!

Students of Commitment Program

The Students of Commitment Program is a new initiative aimed to connect students and alumni to recruitment opportunities. Companies looking to hire for immediate open positions are encouraged to contact our office to schedule interviews with students who have been screened by our office through resume completion, mock interviewing, and professional development training.

Career Services Advisory

As today’s job market constantly changes, so are efforts to ensure our students are prepared in the best way to serve the tactical, cultural, and soft skill needs of the workplace. To increase our capacity in this area, we are looking to initiate our first Career Services Advisory board! We are seeking local employers interested in offering knowledge and expertise to collaborate with our career development professionals in developing innovative ideas to prepare our students and serve workforce needs.

Again, we are excited to engage with you in utilizing any of our services. Please reach out to me if you have further questions. We look forward to working with you!

Regards,

LaTasha Rodgers
