

## Safety Training offered at the Las Vegas – Clark County Library District

Safety Consultation and Training Section (SCATS) has partnered with Las Vegas – Clark County Library District to offer Safety and Health Training in the rural areas.

### Nevada Workplace Safety & Health Training

Providing appropriate training for Nevada employers and employees is essential in maximizing productivity and efficiency while reducing on the job injuries and illnesses. Training in safety and health clearly demonstrates commitment to employee's well-being. SCATS' services provide an opportunity to train your employees at no charge. SCATS' safety and health based courses supplement employer required training programs. SCATS has developed a wide range of training programs and materials on OSHA regulations and Nevada safety and health statutes. These valuable safety and health training classes and materials are another example of how SCATS is your partner to reduce workplace injuries and illness.

Effective January 1, 2010, all construction workers in Nevada are required to complete OSHA 10 or 30 hour Construction classes.

The law (NRS 618.983) requires supervisors and employees doing construction work to complete such training no later than 15 days after being hired, or face suspension or termination from their employer. Construction sites are any location at which construction work is being commenced or is in progress.

Supervisory employees must have completed an OSHA 30-hour Construction course and received their course completion card, and construction workers must have completed an OSHA 10-hour Construction course and also received their course completion cards. The only courses and curriculums acceptable are the construction industry safety and health courses developed by the Occupational Safety and Health Administration (OSHA) of the United States Department of Labor.

### UPCOMING CLASSES

#### Training at the Mesquite library:

OSHA 10 Hr. Construction:

November 13 and 14, 10:30am – 5:30pm
